

ERP Integration Platform for Businesses Selling Healthy Food Alternatives, Organic Products, Nutrients, Supplements, and More

eBridge Connections has proudly served clients in the [Health and Wellness](#) industry for over 25 years. eBridge's universal integration platform automates vital business processes and eliminates the need for manual data entry by enabling bi-directional data exchange between ERP and accounting packages, eCommerce platforms, online marketplaces, CRM applications, EDI trading partners, and more.

Connect with any ERP or Accounting Package

eBridge Connections powers integration with the leading ERP and accounting packages such as Microsoft Dynamics AX, GP, NAV, SL, & 365, Sage 100, 300, & 500, NetSuite, SAP Business One, Epicor Enterprise and many others.

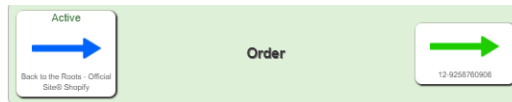

Streamline Item, Order and Customer Data Processing

The eBridge Connections integration platform facilitates automated, bi-directional data exchange between business platforms, eliminating data re-keying while reducing costly errors. This automated integration can be performed over numerous touch points to streamline business processes. An eBridge integration solution enables sales orders, inventory levels, product data, shipping updates, and customer information, and more, to move seamlessly between systems, resulting in satisfied customers and efficient operations.

Key Benefits

- ✓ Eliminate manual data entry and avoid costly errors
- ✓ Increase the speed of data exchange, improving customer service efficiency
- ✓ Reduce deployment time by utilizing turnkey integration solutions
- ✓ Upgrade your ERP or add connections (marketplaces, EDI, CRM) with ease
- ✓ Free up time and resources to focus on your business

Just recently, two companies specializing in healthy, organic food choices, made the decision to join the eBridge Connections' integration platform to automate their vital business data between their back-office ERPs and their Shopify eCommerce stores.

Feature Summary

- ✓ Bi-directional, automated data integration between eCommerce, CRM, EDI, etc., and a connected ERP or accounting system to speed up order processing for busy Health and Wellness companies trying to meet demand
- ✓ Multi-store, and multi-platform (Marketplaces, CRM, EDI) support
- ✓ A fully-managed solution with connectivity, data translation and compliance all handled in the cloud; no-on premise software required
- ✓ Shared business rules that replace the need for mapping and reduce the total cost of ownership
- ✓ Access to eiCloud – a web-based user dashboard for data/document management and archiving
- ✓ Unlimited, 24/7 support response

Pre-Built Accounting/ERP Connectors:

MS Dynamics AX, MS Dynamics GP, MS Dynamics SL, MS Dynamics NAV, Sage 300 ERP, Sage 100ERP, Sage500ERP, SAP Business One, NetSuite, Sage BusinessWorks, Sage BusinessVision, Epicor Enterprise

Project Delivery

eBridge Connections employs a personalized approach to project delivery. It begins with gaining a complete understanding of the client's requirements and then delivering a tailored integration solution that is both efficient and cost-effective. In each project, eBridge leverages a team of experienced and knowledgeable Integration Specialists, Implementation Consultants and Technical Support Agents to provide full-service integration services.
